Detroit, Mich., Aug. 2.—Ormament the says that if he succeeds in making satisfactory arrangements Mr. Brady will null off a finished fact between life and Sharkey, for which Mr. Israely and Sharkey. Israely and Sharkey and Sha

Dison are among the possible altractions.

Dan Sullivan and Jimmy Barry are also on Mr. Brady's card for the week of sport, Kid Lavigne and some good crark-a-jack in his class will unfountedly be among the attractions.

Last, but by no means least, another fight between Robert Fitzsimmons and J. J. Corbett is among the possibilities. At all events Mr. Brady hopes to get up a go between the world's champion and ex-champion to settle the dispute as to whether Fitzsimmons struck a foul blow on that memorable 17th of March or not.

Mr. Brady has already offered big inducements to Fitz and Jim to come together again. They are considering Mr. Brady's proposition. Corbett is understood to be only too anxious to try the red-headed champlon again, and Fitzsimonon 'is thinking.'

Every fight will be to a finish, and Mr. Ellinghouse says it will be the most attractive week's purilistic carnival over put on in this or any other state. He will make Bene bid against Carnon, and cays the successful one will have and cays the successful one will have the successful one will have the successful one will have the successful one will baye the successful one will be the successful one will baye the successful one will baye the successful one will be the most fully successful to the successful one will be the most fully successful to the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful one will be the most fully successful the successful

He will make Beno bid against Carson, and eave the successful one will have to make arrangements for entertaining at least 20,000 people for a week.

Heno is very much excited over the proposition, and Mr. Ellinghouse will probably know more in a day or two than he does today.

Mr. Ellinghouse gaes to Carson in the morning to pay his respects to Governor Sadier.

ernor Sadier.

As near as we could understand from talking with Mr. Ellinghouse, Carson is very much elated at the prospect of a week's fistle sport taking place in that city, but it is by no means certain that cars in will be selected. Mr. Ellinghouse had a talk with General Powning in San Francisce, and the two are working together with the view of milling off the light in Reno during the state of three yards. The—1;55%.

NEW YORK DEMOCRATS.

Important Conference to Be Held In Brooklyn.

Brooklyn.

New York, Aug. 9.—There will be a conference in Brooklyn on Wednesday night of representatives of all the Democratic organizations in New York which adhere to the national Democratic platform adopted by the convention at Chicago that nominated Bryan for the presidency. The purpose of the conference, as announced, is to organize for the municipal campaignthis fall, and the hope is expressed by the leaders in the movement that Tammany Hall will be forced to acquiesce in the selection of a canidiate for mayor, of Greater New York who shall be an avowed advocate of the free coinage of silver. Weaverville, Cal., Aug. 8,—Great excitement prevails at Trinity Center and vicinity over a rich strike made by the Graves brothers and Henry Carter in the drift claim on Coffee creek. In four days they took out three water buckers full of gold, or \$5,500. The largest piece weighed \$12,000. They expect to take between \$12,000 and \$120,000 out of the pocket. The rold is reasive and hes between wills of purphyry and resembles melted gold.

MINING RULES AMENDED.

PLACERS BY PIGEON.

One Miner Returning With 1,300
Pounds of Gold Dust, Which, at Current Figures, Would Net Him the Tidy Little Sum of \$234,000—
Letter From a Woman Who Wintered at Dawson.

Toronto, Ont., Aug. 2.—A special to the Giobe from Ottawa says that the dominion government has received several important decisions in regard to eral important decisions in regard to

the Yukon country and the working of the gold fields there. It has been decided to appoint an ad-

It has been decided to appoint an administrator for the district, who will have entire charge of all the Canadian officials there and be the chief executive officer of the government.

Joseph Walsh, a former commander of the northwest mounted police, is to be appointed to the position. The party of mounted police to leave Manitoba next week for the gold country has been increased from 20 to 35. They will take with them two maxim guns.

The mining rules have been amended in an important particular. At present a miner is at liberty to stake out a claim of 500 feet running along with the stream and back to the bank. This has been reduced to 190 feet, and the new regulation will go into force immediately. A court for the administration of civil and criminal questions of the gold district has also been decided upon. Justice McGuire of Prince Aibert is to preside over the court.

Will Go In the Spring.

Will Go In the Spring.

Port Townsend, Aug. 9,-Judge Joseph Kuhn, an attorney of this place,

seph Kuhn, an attorney of this place, expects to conduct a party of gold prospectors to the Copper river, Alaska, in the spring. As that section of the district is peopled with a hostile tribe of Indians which have thug far been given the goby by the missionaries, it is considered very hazardous to attempt to explore it.

The judge has received hundreds of letters and many Hegrams from all over the country, especially from Texas, from people who want to go to Copper river. Judge Kuhn now thinks he will leave the middle of March with upwards of 200 men, and as the Copper river Indian tribe numbers only from \$80 to 1,000 in all, with less than 200 braves, no serious trouble is appre-

yesterday. There has one, and \$16,000 from what two men shoveled into sluice boxes in four hours.

"My husband went to the mines one day. He met men coming down staggering under loads of gold, 100 pounds apiece, which they had earned by working mines on shares in the last seven months. Some left on the steamer yeaterday with fortunes. The largest for one man was 1,300 pounds.

"Mr. Adams hired out for \$10 the night he got here. He has earned \$120 already. His business is music. I went to work dressmaking with a woman last Monday about 3 o'clock because she had a house and a sewing machine. She was sick two days, yet we figured but \$30 Saturday night, \$45 apiece, with a great pile of dry goods stacked up ahead of us.

"When I got here there was not a woman here who could cut and fit a dress. There are no whale bones, waist bindings, nor canvas to be had, but our prices are \$5 for calico Mother Hubbards \$6 for empires, \$8 for a pialn wool skirt, and \$10 for a waist. And they weigh out the gold and most always weigh out the gold and most always hay more. I sold one bracelet for \$5.50, and three 5-cent sacks of candy for \$1.50, making \$35, to one girl. She poured the gold in the scales, saying she would give good weight to bring me luck. When I weighed it there was \$45.50 and that is the way it goes, Gold in [dentiful."]

GROW IN KANSAS. Salt Lakers are going into the crispette business on an extensive sale, and unless their plans are thwarted by equally as clever speculators, they will in a short time be the crispette monopolists of the west. W. H. Irvine and Joe Lippman, the retired Republican politician, are at the head of the syndicate, and of course Joe is pulling the wires. His recent visit to Maxico is and to have been in the interest of his crispette trust, and it will not be a surprise it, four months from the date of his arrival in the tay of Mexico, letters patient on the manufacture of the succentent crispette are issued to him and his associates. Late Injunction of Judge Williams and the Sweeping Effect It Would Have Were It Carried Out.

INSUBANCE TROUBLES SEEM TO

Topeka, Kan., Aug. 9.-The long

threatened clash between the United

States court and the authorities of the state of Kansus came today, when At-

torney General Boyle, acting upon the advice and with the concurrence of the state administration, took steps in the state supreme court in open defiance of the federal authorities. This is the outcome of an injunction issued July 29 last by United States District Judge John A. Williams of Arkansas at Colorado Springs, Colo., by which he positively enjoined State Insurance Commissioner Webb McNail and Attorney General Boyle of Kansas from bringing any proceedings whatever under the state laws to prevent the Mutual Life Insurance company from doing business in Kansas. The injunction of Judge Williams was sweeping in its effect and amounted, according to Governor Leedy, Attorney General Boyle and Commissioner McNail, to a practical annulment of a criminal law of Kansas, under which the Insurance company had been prevented from doing business in Kansas. The authorities held that the decision of the United States judge was a violation of the constitution and also in contravention of decisions of the United States a ate supreme court in open defiance of Nat Brigham is also said to be interesting himself in the business, and to have acquired control of Colorado. He is also said to be in the field for the Netion of decisions of the United States supreme court. Acting upon this belief Attorney General Boyle today went before the state supreme court, bringing proceedings in quo warranto against the Mutual Life Insurance company to compel that corporation to appear before the state supreme court and show by what authority it is transacting business in the state of Kansas.

As Boyle Views It. Kansas City, Mo., Aug. 9.—The Times

me: with great favor wherever introduced.

Max H. Fay, the well known commercial traveler of San Francisco, is at the Knutsford, Business very recently called him to Juneau, Alaska, and he arrived there when the Klondyke gold excitoment was at its zenith. He corrol states the stories current of the hardships which must be endured in reaching the gold fields and predicts that the bubble created by the excitement will be punctured in a very short time. It is true, he says, that miners wages in the Klondyke are \$15 a day, but the great rush to the discings will soon result in the lowering of wages to at least \$6 a day. The town of Juneau, he says, is aimost depopulated, every ablabilities and the says. It is a summer of the town of Juneau, he says, is aimost depopulated, every ablabilities of least \$6 a day. The town of Juneau, he says, is aimost depopulated, every ablabilities. The same condition, he says, exists in the Puget Sound country. The same condition, he says, exists in the Puget Sound country. Men with barely enough means to pay their passage to Juneau are leaving their homes by every steamer, and, in his opinion, hardships, suffering and disappointed hopes will be the reward of the majority of those who seek to beseft their condition in the gold fleids. The Dominion government's demand of 20 per cent royalty on all gold taken out, and the further fact that heavy duties are exacted on all supplies taken in, do not act as detremits to the rush. The people of the horthwest are, in his upunion, Klondyke mad, and only experience of the most bitter kind will be the panacea for their climent. temorrow morning will print an interview with Attorney General Boyle, of Kansas, as to the issue raised between the Kansas authorities and the federal courts. The attorney general states that he has no desire to defy anyone, but that he is simply acting according to his duty under the laws of Kansas. He explains that the state laws are plain that no foreign insurance company shall do business in the state without a liconse from the superintendent of insurance. The Mutual Life, he says, has no such license, though its general agent Mr. Lord, continues to solicit business. The attorney general adds that if the insurance commissioner is illegally withholding a license from that company the courts of the state are open to the company to compel the commissioner to grant such a license, and he adds that the corporation has seen fit to wholly ignore the state the Kansas authorities and the federal be will leave the middle of March with upwards of 260 men, and as the Copy of the purphase are, in his spinion.
